chipzel's soundtrack is amazing and absolutely worth the download. The game is boring. Simple steer left or right.. it kepp on saying no response :( Not bad. I almost put a hole in my ceiling while smacking my controller into it as I threw a grenade -\_-

You really should make reloading something the user has to do, though. Once you've manually reloaded in a VR game, you never want to go back to having it done for you.. Well, it's fine at the first 20-30 minutes...but then it's getting boring. Tron-like world/graphics. Performance issues killed this game. FPS at about 10 to 12 makes me wonder how the developer dares to call himself: premium.. It's fine, although expensive

Feels like Early Access but it's not an Early Access game. I wish it was EA because then at least I would know more content and more plans are in the pipeline but as far as a fully released title goes it's probably only ever going to add small content updates via DLC in the future which is shame. Time will tell. How to study for school:

- Play recording of what you need to review
- Launch headcrab frenzy
- Struggle to kill headcrabs and study at the same time

10/10 would be entertained while studying again.

. A great throwback to old school Atari shooters, this game is very easy to learn and very fun to play! one of the biggest surprises was the soundtrack, which is FANTASTIC!! Every song is different and fits that stage perfectly. Here is a video of my play through through two levels!

[https://youtu.be/VpsQ\\_icSIRAU](https://youtu.be/VpsQ_icSIRAU). Very Fun Much Awesome Buy Like Right Now Light This Second SERIOUSLY!!!! Why Are You Still Reading This Go Buy This Super Mega Cool Game.....GO!!!!. I found this to be both cute and emotional.

[The main character is researching wildlife and living in the mountains alone for a year as part of the research but ends up meeting the fox spirit: Mori. From there, adventures in learning more about each other's worlds and futures begins.](#)

[This game is not a prequel to Fox Hime; aside from the names Mori and Yan, this is an entirely new and different story that happens.](#)

[The story was enjoyable and was a nice read. Would not mind a third visual novel for this series.. Quite good! I wish the developer would put some more work into this game. Really fun little timewaster IMHO.. Comit the Astrobian 2 is reminiscent of Sonic the Hedgehog.](#)

[You are a little brown ball who likes to run around collecting yellow stars, with an occasional red star thrown in for a bit of variety.](#)

[There is some Sonic-style music that constantly plays in the background \(I'm pretty sure that the guards play this music for hours on end to prisoners at Guantanamo Bay, as a form of inhumane torture\).](#)

[The game is designed for a controller, although it can be played with a keyboard as well. However, at this stage, the keys cannot be changed.](#)

[If you liked playing Sonic the Hedgehog, then this might be a good game for you. But I just found it annoying and boring.](#)

[I'm guessing that this is not my type of game.. Ahhh another for the Cherry Tree High saga, can't wait for the next one, ok I will give a quickly\(quick\) summary](#)

[This is so far my favorite game from the CTH games, the story is something like this, we are a teacher, you can name him, more exactly a P.E teacher who is "forced" to choose from the most powerful students on the school to form a team of three and win the mixed martial arts tournament, choose the wild luchador girl raised on Brazil's jungle, the mad scientist who use drugs to gain superhuman strength, the magical girl who is also a hardcore otaku, the young delinquent who destroy everything on her path or the white haired cyborg who can shoot laser beams from her eyes...probably...](#)

[or many more!](#)

[the game is full with choices that change how your team see you and their team mates](#)

[you can choose your specialitation! will you be a sneaky teacher who knows everything with one gaze, a profesional healthcare, or a man who let his words do the rest.](#)

[the game has also references to older games but is not necessary to play this for the story. A pretty okay game that gets sank by](#)
